

EDEN FUTURES PROJECT

The Department of Family and Community Services (FACS) is working with Bega Valley Shire Council, local schools, community organisations and businesses to support social housing residents and broader communities to create a positive future of social and economic wellbeing in Eden.

The priorities for this work are:

- **Engagement and capacity building**
- **A positive community**
- **Bringing people together**
- **Education and employment**
- **A community hub**
- **Transport**

The first part of this work is the development of an Education, Training and Employment Plan for Eden. The Plan aims to identify education, training and employment projects for Eden that can build social and economic wellbeing.

The other five key priority areas identified will be considered as part of a place-based plan for Eden being developed by Bega Valley Shire Council. More information on this work will be available in the coming weeks.
